

HEALTH & SAFETY ENFORCEMENT

A PRACTICAL GUIDE FOR LOCAL AUTHORITIES

CONTENT

Using case studies, practical examples and discussion this session seeks to equip officers with the basic tools needed to regulate health and safety. Delegates will discuss various scenarios and work together to tackle common and relevant issues that they may face. The programme includes:

- Health and safety law and the regulatory framework
- Enforcement choices and significance of enforcement policies
- Review of the most commonly used legislation
- Concept of goal setting legislation
- SFAIRP/ALARP*
- Relevant policies and sources of guidance
- Risk assessment
- Servicing notices
- Use of HSW S20 Inspectors powers
- Accident investigation case study
- HSW S20, CJA S9 and PACE
